
OpenTimelineIO Documentation

Release Beta5

Pixar Animation Studios

Aug 05, 2019

Contents

1	Overview	1
2	Indices and tables	3

CHAPTER 1

Overview

OpenTimelineIO (or OTIO) is a library and file format for the interchange of editorial data. We hope it can be useful to you and your projects.

This documentation is extracted from the source code and provides the API reference for developers.

The user documentation that is currently up to date lives at the wiki:

- <https://github.com/PixarAnimationStudios/OpenTimelineIO/wiki>

CHAPTER 2

Indices and tables

- `genindex`
- `modindex`
- `search`
